Product Shelf Life	3 years

##### Serving Info

Serving Size  
Servings per case:

##### Analytical

##### Color

Typical of Natural Condition Prunes. Newly dehydrated prunes are reddish/brown. The typical natural condition prune is almost dark brown/black in color.

##### Foreign Material

##### Offgrade

None.

Offgrade is determined using the Dried Fruit Association (DFA) scoring methodology.

##### Origin

Product is grown and processed in the State of California, USA. All prunes are of the "French" d'Agen variety. These fruits are of natural genetic origin (non-GMO).
